DETAILED ACTION

The indicated allowability of claims 11-15 is withdrawn for the reasons stated below.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 11-15 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 11-15 teach a computer program without a computer readable medium. Computer programs claimed as computer listings per se, i.e. the descriptions or expressions of a program are not physical “things.” They are neither computer components nor statutory processes, as they are not “acts” being performed. Such claimed computer programs do not define any structural and functional interrelationships between the computer program and other claimed elements of a computer that permit the computer’s functionality to be realized.

Allowable Subject Matter

Claims 1, 3-6, and 8-10 are allowed.

The following is an examiner’s statement of reasons for allowance: Please see previous office action and applicant’s response for reasons for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
